# September 2011

1

An eco-friendly water bottle saves a lot of plastic bottles from going into landfills.

2

Auyuittuq National Park on Baffin Island was established in 1972. It was Canada's first national park north of the Arctic Circle.

3

Guess who?

4

This year ride your bike or walk to school as much as possible!

5

**Labour Day**

Write a song to get an environmental message out.

6

Reuse last year's school supplies. If you do need some new ones, try to find ones that are made from recycled materials.

7

8

**International Literacy Day**

Write a blog about an environmental issue that you care about!

9

**Riddle:**  
What has four wheels and flies?

**Answer:**  
A trash bin!

10

There are more than 10 000 protected areas around the world!

11

**Cool fact!**

Striped skunks don't spray in their dens or in small areas!

12

Open the curtains in your home during the day for natural light. Remember to close them at night to keep the warmth inside!

13

**International Chocolate Day**

Try some fair trade organic chocolate.

14

Ask your teacher if your class can be held outdoors today!

15

On this day in 1968, experts from around the world met for the first time to discuss environmental problems at the United Nations Biosphere Conference in Paris.

16

17

This weekend join people all over the world in cleaning your community!

18

The Great Canadian Shoreline Cleanup is this week. Help keep Canada's shorelines free of litter.

19

**Talk Like a Pirate Day**

Make sure ye be aware o' the environmental impact o' yer plunderin'!

20

Canada has over 180 indigenous tree species.

21

Always pack a litterless lunch for school

22

**World Car Free Day**

See if your family can go the whole day without using your car!

23

**First Day of Fall**

Autumnal Equinox

24

Join the environment club at school to make a difference!

25

**World Rivers Day**

The Amazon River has the most water flowing through it in the world.

26

The Aurora Borealis (Northern Lights) are caused by electrically-charged particles attracted to the Earth's magnetic field. The particles hit the upper atmosphere causing beautiful colours across the night sky.

27

28

Buy what you need locally.

29

The oldest waterfowl refuge in North America is Last Mountain Lake Bird Sanctuary in Saskatchewan.

30

“A country is known by the way it treats its animals.”

Jawaharlal Nehru
